PHOTOGRAPHY

## EDUCATION

I am Yelena Overchenko, a professional photographer from Kazakhstan based in Bolton, Greater Manchester, UK. I am experienced working with more than ten years of experience in fashion, fine art and portraiture. Photography, for me, is a passion; it is more than just a practice. Photography is a part of me; it is an art form, a special kind of beauty that a person creates employing creative vision.

I graduated with a 1 class BA (Hons) in the Photography University of Bolton.

As for my vision, I lean towards romanticism for content creation; this is observed in my work style.
